

*Do you value clean water, air and soil for future generations?*

# **SAVE OUR MACLEAY RIVER**

Meeting of concerned Macleay residents in

## **KEMPSEY**

with several speakers from near and far

**Sat 23 March 2013 - 1.30 pm**

**Kempsey Macleay RSL Bowling & Sporting Club**

**13 Austral Street**

There is an existing pollution issue on the Macleay from poor mining practices at Hillgrove and other areas. There are new exploration licences recently issued, plans to reopen old mines and start new mines in our catchment. This will cause further contamination of our waterways all the way to the sea with lead, antimony, arsenic and other heavy metals.

***If you drink the water, fish, canoe, swim or water your stock or garden, from our river, you need to be informed and active!***

**For more information contact Lisa 6562 8833 or Arthur 6567 2010**
